

# C-Start® by Unitec

## Cashless pay station for simple, automated transactions.

The C-Start was designed to simplify the transaction experience for car wash customers. The unit works with in-bay automatic or conveyor car wash systems and is the right choice for operators who wish to automate payment processes. The cashless unit accepts credit cards or wash codes. C-Start is a smart and efficient choice for petroleum market operators.

### Ease of Use

C-Start features an ergonomic, 12-inch touchscreen user interface that is easy to understand and operate. Wash and pricing options can be viewed on a single screen, making it easy for customers to make quick decisions about which wash they wish to purchase.

Car wash owners who want to simply accept credit cards and/or codes for payment will find that C-Start will meet their needs. Additional marketing applications are available for those who are eager to build business and increase revenues.

### Marketing Options

Customizable promotions and video advertisements are standard features. An enhanced marketing package is available, offering 100,000+ house accounts which can be used for loyalty, prepaid, fleet or subscription wash programs. Branding opportunities are enhanced through C-Start's customizable graphics panels and post-sale video advertising capabilities. C-Start can also be equipped with a ReachFree ID® system (RFID).

by 

### Efficiency through Remote Management

Remote access tools allow the site owner to monitor status in real time, be notified of faults or alerts, receive daily reports and access all business data from off-site locations.

# Features
