NoPileups™ Stop Handling Procedure

1. **Watch Replay**
   Verify NoPileups triggered the stop (Load on Display background flashes red or yellow) and review video.

2. **Reposition Vehicle**
   If not on original roller/flight, correct physical vehicle position. At tunnel exit, direct customer to leave.

3. **Align Red Box**
   If vehicle is ahead of red box, press ROLLER on NoPileups Remote.

4. **Restart Conveyor**
   Start conveyor using standard wash procedure.

Hopped Roller/Flight
Press ROLLER button

ROLLER

Same Car, Multiple Stops
Press IGNORE button
